EDUCATION

BE Computer Engineering
LJ Institute of Engineering and Technology
07/2018 - 05/2022   *CGPA: 9.56*

Higher Secondary School
M.B. Patel Secondary and High secondary school
06/2016 - 08/2018   *Percentile - 86.6*

Secondary School
M.B. Patel Secondary and High secondary school
06/2014 - 03/2016   *Percentile - 97.59*

EXPERIENCE

JavaScript Web app developer
KCS - Krish Compusoft Services Inc
02/2022 - Present   *Ahmedabad*
Achievements/Tasks

- Received the "Best Intern" award for exceptional performance during the internship at KCS.
- Collaborated with a team of 15 developers to develop a web application using NextJS for printing digital ID cards with an integrated template editor.
- Designed and implemented a system that dynamically generated PDFs from records and JSON templates, optimizing ID card printing to fit images and minimize white space.
- Developed an integrated design editor using React that allowed users to create templates for a project by dragging and dropping elements. Implemented all required functionality for the project based on specific requirements, ensuring that the editor was user-friendly and met all design specifications.
- Gained proficiency in agile methodologies, teamwork, and cutting-edge technologies through hands-on experience.

Web developer (Intern)
Asambhav Solutions
*06/2021 - 11/2021*   *Gandhinagar*
Accomplishment/Responsibilities

- Implemented industry standards while collaborating with a team to build real-world applications using React JS and Node JS technologies.
- Developed an application that connects employers and job seekers, allowing employers to post job listings and job seekers to search and apply for positions that match their skills and interests. I had implemented the database and server-side logic for storing and retrieving job listings and job seeker profiles.
- Developed a Chrome extension that enables users to scrape information from different websites using ReactJS technology.
